Paul

Were you planning on attending the ARA meeting on Tuesday 28th? The endogenous stuff is being presented that day and it is at EPA-PY. I think they may have some new stuff in addition to what Starr presented since I see that Jeff Schroeter has been added and he is doing both PBPK and CFD modeling. I may need to help my parents out in Philly that day so I have tentatively said I will be on leave.

Bob was asking me if I could attend, so it appears there is a desire to have an EPA presence.

Ravi.
